

With you...

When we think of the future, we envision a healthy city and strong neighbourhoods. That's why United Way created The Tomorrow Fund™, our endowment fund to invest in programs today and in the future.

With assets of \$41,550,000 – a 16 per cent increase over last year – the Fund annually provides stable funding to help children and families through Success by 6®, a United Way program giving children six and under a chance to thrive.

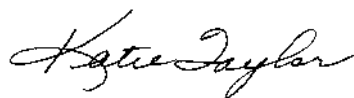

In 2005, The Tomorrow Fund™ provided \$1,481,000 to 17 programs, many in our priority neighbourhoods. These programs laid strong foundations for success in school, improving family nutrition and parenting skills, and connecting isolated families to support. Some measures of success included:

- 90 per cent of children in a school readiness program showed significant improvement in hand-eye coordination, pre-math skills, sharing, language and more;
- 75 per cent of parents in a fathers group made positive changes to their parenting styles; and
- 100 per cent of parents in a parent relief program reported that the program helped reduce feelings of stress and isolation.

Success by 6® has provided support to almost 40,000 children and 35,000 parents over the past seven years. An additional \$81,000 went to other United Way programs that help seniors, abused women, and children from low-income families, homeless people and many more.

As well, four new families created named funds for a total of 50 Family Funds in the endowment.

With generous donors like you, we will be able to sustain our impact today and in the future through The Tomorrow Fund™.

Strategic Alliance with the Toronto Community Foundation

United Way of Greater Toronto is proud to partner with the Toronto Community Foundation (TCF) and retains the TCF to manage our endowment, The Tomorrow Fund™. We are grateful to the many TCF donors who include United Way among their grant choices. TCF donors understand the importance of United Way's work in the community and value the rigour of our grant allocations process.

...we are building a better tomorrow.
